

On behalf of Special Olympics Virginia and DialAmerica's Sponsor Sales program, this email is to express concern regarding the do-not-call registry and the technological requirements being imposed on telemarketing. DialAmerica has been a leader in the industry in terms of quality, technology and performance and has raised over \$200 million for Special Olympics. These funds would be extremely difficult to replace if they were not available to Special Olympics programs. Please provide a clear cut exemption for the DialAmerica Sponsor Sales program so that DialAmerica can continue to provide this unique and benevolent funding source for Special Olympics.

Sincerely,
Rick Jeffrey
President - Special Olympics Virginia
